Business review

Driven by the strong mainland tourist and consumer spending and the strength of US economic recovery, the local economy for the year ended 31 March 2005 (the "Year") has made a satisfactory growth with the rising property and stock prices. With the strong recovery in the local economy and the rebound in equity market, the Group has recorded appreciable profit growth for the Year. The net profit from ordinary activities attributable to shareholders for the Year was HK\$25.1 million, comparing to a net profit of HK\$1.2 million last year.

The Group's turnover was HK\$39.9 million for the Year after taking into account of the segment of treasury investment of HK\$32.1 million. The Group's turnover for the last corresponding year was restated as HK\$15.8 million accordingly. The increase in the Group's net profit for the Year was primarily attributable to the contribution from treasury investment segment comprising of realised gain on other securities of HK\$28.0 million and unrealised gain of other securities of HK\$23.0 million.

During the Year, the turnover of car audio products decreased by HK\$7.6 million, or 49% to HK\$7.8 million. The decrease in the turnover of car audio business was mainly due to the continued decline in sales of the car audio products resulting from the squeezing profit margins and the increasing demand for new generation products in the existing highly competitive market. Stripping of the impairment charges of fixed assets of HK\$3.8 million and write-offs of slow moving inventory of HK\$2.7 million, the operational loss for this segment reduced by HK\$1.2 million or 11% to HK\$9.2 million.

During the Year, the Group continued to face challenging and difficult operating environment of the car audio market. The Group's car audio market became hostile and was characterized by overcapacity, low profit margins and intense competition. With the fast development of MP3 and digital transmission technology, customers tended to change their needs and tastes more frequently and have strong desires for new car audio products with latest technological functions and features. The new generation products trend has made the existing product models obsolete very fast and substantially shortened the average product life cycle. As a result, the Group has suffered a significant decrease in the sales volume of its mainstream products including car cassette & CD. In addition, the rising raw material costs resulting from high oil price has also further eroded the profit margins of the manufacturing and outsourcing products.

In order to contain the operating loss, the Group has completed cost reduction program and substantially reduced the direct labor workforce. During the Year, the Group has subcontracted an assembly works of its products to the business partners. Such corrective action has mitigated partly the adverse effects of falling profit margin and the decreasing sales volume. The positive resulting effect of this cost reduction initiative will be fully reflected in the coming financial year.

Apart from relieving the burden of fixed manufacturing costs, the Group for the Year focused its efforts on strengthening the trading business by sourcing a wide range of products and expanding the existing sales network. Through the cooperation with the business partners, active participation in trade fair, and advertising & promotion, the Group has started to trade in several brought-in car audio products and recorded sales of certain trading orders.

As part of the Group's treasury investment management, the Group has been utilizing its available fund in securities investment and trading for generating and diversifying revenue streams for the past few years. Previously, these activities were not separately identified and were classified as unallocated item in the segmental information. In order to enable investors to better understanding the performance business of the Group, the Board believes that it is more appropriate and necessary to separately identify and report the treasury investment as one of the Group's major and ordinary courses of business. During the Year, the treasury investment business segment has brought positive contributions to the Group on the back of the strong rebound of local equity market and low interest rates. The turnover and the segment results of treasury investment for the Year was HK\$32.1 million and HK\$50.6 million respectively.

On 2 February 2005, the Group entered into an agreement to acquire the entire equity interest in Sociedade De Fomento Predial Fu Wa (Macau) Limitada, which is the owner and operator of Hotel Grandeur Macau, for HK\$500.0 million. Details of such transaction were disclosed in the Company's announcements dated 27 January 2005 and 4 February 2005 and the circular dated 10 June 2005.

However, the current overheating gaming business in Macau has adversely affected the overall market sentiments and weakened the business confidence of investors. The above proposed acquisition was not approved by the shareholders in the Special General Meeting of the Company held on 27 June 2005. Details of the result of the said shareholders' meeting were disclosed in the Company's announcement dated 27 June 2005. Despite of this, the financial position of the Group remains sound and the Group is well positioned to explore investment opportunities for the growth of new business.

Prospects

The squeezing profit margins and the increasing demand for the new generation products will be a continuing trend in the car audio market. This highly competitive market will continue to be dominated by several large manufacturers who offer the comparable products at very low costs. In order to avoid the direct cost competition and find a new niche in the market, the Group will continue to put the cost control measures in place and trade in a wider range of new generation car audio and other high-end audio-video products for the year to come. In anticipation of the improving sentiments in capital and equity market, the Group will also strengthen its treasury investment segment to increase shareholders' value.

Looking ahead, the Group will continue to pursue its strategy to diversify its existing business and revenue streams. The continued global and local economic growth will create an abundance of investment opportunities across various industries. The Group will be alive to the suitable investment opportunities and poised to seize them for its growth of new businesses.

Financial review

The Group's financial position for the Year remained strong, with the net asset value as at 31 March 2005 increased by 38.3% to HK\$315.9 million. (31 March 2004: HK\$228.4 million). The increase was mainly attributable to the net profit of HK\$25.1 million and new share placing of HK\$62.4 million (net of expenses). During the Year, the Group has further strengthened its financial position to support its operation and make new investments through the placement of new shares.

Liquidity and financial resources

During the Year, the Group generally financed its operation with internally generated cash flow, banking facilities and the placement of new shares. In March 2005, the Group raised approximately HK\$62.4 million (net of expenses) for working capital purpose by placing a total of 2,000,000,000 new shares at HK\$0.032 per placing share through the placing agent. As a result, the Group's bank and short-term deposits as at 31 March 2005 was increased to HK\$90.0 million.

During the Year, the bank overdrafts of the Group was repaid in full (at 31 March 2004: overdrafts of HK\$4.4 million). As at 31 March 2005, there were no bank overdrafts, short and long term interest bearing borrowings or material contingent liabilities to the Group. As at 31 March 2005, the Group's gearing ratio, being the total interest bearing bank borrowing to net worth was nil (31 March 2004: 2%).

As at 31 March 2005, the Group's current ratio was 34.2 times (at 31 March 2004: 16.6 times) based on current assets of HK\$311.3 million (at 31 March 2004: HK\$234.3 million) and current liabilities of HK\$9.1 million (at 31 March 2004: HK\$14.1 million).

Subsequent to the Year, the Group has obtained short-term unsecured loans of HK\$90.0 million in aggregate to finance the proposed acquisition of the entire equity interest in Sociedade De Fomento Predial Fu Wa (Macau) Limitada. At the date hereof, the above loans have been fully repaid by the Group.

Capital structure

The Group's bank deposits and borrowings are mainly denominated in Hong Kong dollars. Most of the Group's sales and purchases are made in United States dollars and Hong Kong dollars. Therefore, the exchange risks exposed to the Group is minimal.

On 27 January 2005, the Company entered into an agreement with a placing agent for placement of 4,000,000,000 new shares at HK\$0.032 per placing shares, 2,000,000,000 shares were placed in March 2005 (the "First Placing") whilst the remaining 2,000,000,000 shares will be placed on a best effort basis (the "Second Placing"). The 4,000,000,000 placing shares represented approximately 42.86% of the issued share capital of the Company as at 27 January 2005. As at the date hereof, the Second Placing has not yet completed. Details of the First Placing and the Second Placing have been disclosed in the Company's announcements dated 27 January 2005 and 30 May 2005 and the circular dated 16 February 2005.

On 21 June 2005, the Group proposed a capital reorganisation including the consolidation of every ten existing shares of HK\$0.01 each in the issued share capital of the Company into one consolidated share of HK\$0.10 and the cancellation of HK\$0.09 paid-up capital for each consolidated share. In addition, the existing board lot of 2,000 shares will be changed to board lot of 10,000 reorganised shares. Details of the capital reorganisation were disclosed in the Company's announcement dated 21 June 2005 and circular dated 4 July 2005.

Significant investments

As at 31 March 2005, the Group had convertible notes issued by a company listed on The Stock Exchange of Hong Kong Limited with carrying amount of HK\$13.5 million.

As at 31 March 2005, the Group maintained a portfolio of other securities with fair value of HK\$ 194.7 million.

Details of Charges on Assets

At 31 March 2005, a fixed deposit of HK\$6.6 million (2004: HK\$6.5 million) and an unlisted investment fund of HK\$4.1 million (2004: HK\$4.0 million) were pledged to secure banking facilities granted to the Group.

Material acquisitions and disposals

During the Year, the Company has no material acquisition and disposal of subsidiaries and associate.

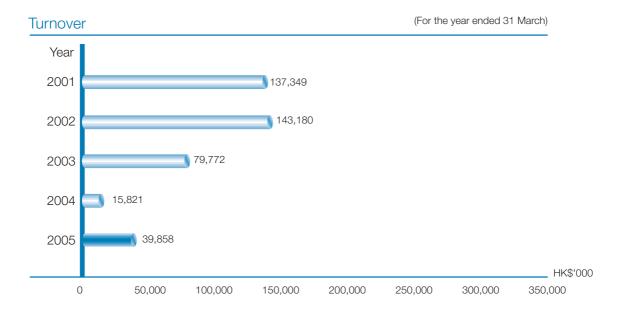

Employment, Training and Development

At 31 March 2005, the Group had a total of 49 employees of which 23 were based in Hong Kong and 26 were based in the Mainland China. The Group has committed itself to its staff training and development and structured training programs for all employees.

Remuneration packages are maintained at a competitive level and reviewed on a periodic basis. Bonus and share options are awarded to certain employees according to the assessment of individual performance and industry practice.

Accordingly, Coupeville Limited and Heritage International Holdings Limited were deemed to be interested in the 928,000,000 shares of the Company held by Dollar Group Limited.
- c. As at 31 March 2005, Findco Enterprises Limited, China Travel Service (Hong Kong) Limited (the holding company of Findco Enterprises Limited), Alton Services Limited (the holding company of China Travel Service (Hong Kong) Limited, China Travel International Investment Hong Kong Limited (the holding company of Alton Services Limited), China Travel Service (Holdings) Hong Kong Limited (the holding company of China Travel International Investment Hong Kong Limited) and 中國之中國旅行社總社(the holding company of China Travel Service (Holdings) Hong Kong Limited), were interested in the 2,500,000,000 underlying shares of the Company, being the convertible notes to be issued by the Company as partial consideration for the acquisition of the entire equity interest in Sociedade De Fomento Predial Fu Wa (Macau) Limitada. Subsequent to the balance sheet date, the aforesaid convertible notes were not issued due to the termination of the said acquisition.

Directors' interests in competing business

During the year and up to the date of this report, no directors are considered to have an interest in a business which competes or is likely to compete, either directly or indirectly, with the businesses of the Group, as defined in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), other than those businesses of which the directors of the Company were appointed as directors to represent the interests of the Company and/or the Group.

Post Balance Sheet Events

Details of the significant post balance sheet events of the Group are set out in note 31 to the financial statements.

Code of Best Practice

In the opinion of the directors, the Company complied with the Code of Best Practice as set out in Appendix 14 of the Listing Rules in force prior to the accounting period commencing on 1 January 2005, throughout the accounting year covered by the annual report.

Model Code for Securities Transactions

The Company has adopted a code of conduct regarding securities transactions by directors (the "Own Code") on terms no less exacting than the required standard set out in the Model Code. Based on specific enquiry of the Company's directors, the directors confirmed that they complied with the required standard set out in the Model Code and the Own Code, throughout the accounting period covered by the annual report.

Audit committee

The Listing Rules require every listed issuer to establish an audit committee comprising at least three members who must be non-executive directors only, and the majority thereof must be independent non-executive directors, at least one of whom must have appropriate professional qualifications, or accounting or related financial management expertise. The Company established an audit committee (the "Audit Committee") in 1999 with reference to "A Guide for the Formation of an Audit Committee" issued by the Hong Kong Institute of Certified Public Accountants (formerly known as Hong Kong Society of Accountants). In accordance with the requirements of the Code on Corporate Governance Practices set out in Appendix 14 of the Listing Rules, the terms of reference of the Audit Committee were revised on 26 July 2005 in terms substantially the same as the provisions set out in the Code on Corporate Governance Practices.

The principal duties of the Audit Committee include the review and supervision of the Group's financial reporting system and internal control procedures, review of the Group's financial information and review the relationship with the auditors of the Company. The Audit Committee comprises three members, Mr. Tung Tat Chiu, Michael (Chairman of the Audit Committee), Mr. Li Chi Ming and Mr. Wan Ngar Yin, David who are the independent non-executive directors of the Company. The Audit Committee had reviewed with senior management of the Group and external auditors the accounting principles and practices adopted by the Group, and discussed auditing, internal control and financial reporting process including the review of the Company's consolidated financial statements for the year ended 31 March 2005.

Auditors

Ernst & Young retire and a resolution for their reappointment as auditors of the Company will be proposed at the forthcoming annual general meeting.

Report of the Auditors

II ERNST & YOUNG

安永會計師事務所

To the members

139 Holdings Limited

(Incorporated in Bermuda with limited liability)

We have audited the financial statements on pages 22 to 68 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

Respective responsibilities of directors and auditors

The Company's directors are responsible for the preparation of financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently. It is our responsibility to form an independent opinion, based on our audit, on those financial statements and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Basis of opinion

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Institute of Certified Public Accountants. An audit includes an examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's and the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 March 2005 and of the profit and cash flows of the Group for the year then ended and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

1. Corporate Information

The principal place of business of 139 Holdings Limited is located at Rooms 1603-5, 16/F, Harcourt House, 39 Gloucester Road, Wanchai, Hong Kong.

The principal activity of the Company is investment holding. The principal activities of the subsidiaries consisted of the manufacturing, trading and distribution of car audio equipment and other merchandise and securities investment and trading. There were no significant changes in the nature of the Group's principal activities during the year.

2. Impact of Recently Issued Hong Kong Financial Reporting Standards ("HKFRSs")

The Hong Kong Institute of Certified Public Accountants has issued a number of new and revised Hong Kong Financial Reporting Standards and Hong Kong Accounting Standards, herein collectively referred to as the new HKFRSs, which are generally effective for accounting periods beginning on or after 1 January 2005. The Group has not early adopted these new HKFRSs in the financial statements for the year ended 31 March 2005. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a significant impact on its results of operations and financial position.

3. Summary of Significant Accounting Policies

Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (which also include Statements of Standard Accounting Practice ("SSAPs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for certain equity investments and investment fund, as further explained below.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 March 2005. The results of the subsidiaries acquired or disposed of during the year are consolidated from or to their effective dates of acquisition or disposal, respectively. All significant intercompany transactions and balances within the Group are eliminated on consolidation.

Minority interests represent the interests of outside shareholders in the results and net assets of the Company's subsidiaries.

Subsidiaries

A subsidiary is a company whose financial and operating policies the Company controls, directly or indirectly, so as to obtain benefits from its activities.

The results of subsidiaries are included in the Company's profit and loss account to the extent of dividends received and receivable. The Company's investments in subsidiaries are stated at cost less any impairment losses.

Goodwill

Goodwill arising on the acquisition of subsidiaries represents the excess of the cost of the acquisition over the Group's share of the fair values of the identifiable assets and liabilities acquired as at the date of acquisition.

Goodwill arising on acquisition is recognised in the consolidated balance sheet as an asset and amortised on the straight-line basis over its estimated useful life of five years.

SSAP 30 "Business combinations" was adopted on 1 April 2002. Prior to that date, goodwill arising on acquisitions was eliminated against the consolidated reserves in the year of acquisition. On the adoption of SSAP 30, the Group applied the transitional provision of the SSAP that permitted such goodwill to remain eliminated against the consolidated reserves. Goodwill on acquisitions subsequent to the adoption of the SSAP is treated according to the SSAP 30 goodwill accounting policy above.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Goodwill (continued)

On disposal of subsidiaries, the gain or loss on disposal is calculated by reference to the net assets at the date of disposal, including the attributable amount of goodwill which remains unamortised and any relevant reserves, as appropriate. Any attributable goodwill previously eliminated against the consolidated reserves at the time of acquisition is written back and included in the calculation of the gain or loss on disposal.

The carrying amount of goodwill, including goodwill remaining eliminated against the consolidated reserves, is reviewed annually and written down for impairment when it is considered necessary. A previously recognised impairment loss for goodwill is not reversed unless the impairment loss was caused by a specific external event of an exceptional nature that was not expected to recur, and subsequent external events have occurred which have reversed the effect of that event.

Fixed assets and depreciation

Fixed assets are stated at cost less accumulated depreciation and any impairment losses. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after fixed assets have been put into operation, such as repairs and maintenance, is normally charged to the profit and loss account in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the fixed asset, the expenditure is capitalised as an additional cost of that asset.

Depreciation is calculated on the straight-line basis to write off the cost of each asset over its estimated useful life, after taking into account its estimated residual value. The principal annual rates used for this purpose are as follows:

Medium term leasehold land and buildings
Land use rights

whichever is shorter

Over the terms of the land use rights

50 years or over the lease terms,

Leasehold improvements

Over the remaining lease terms or 3 years,

whichever is shorter

Plant and machinery

Motor vehicles, furniture,

7 to 10 years

fixtures and equipment

3 to 5 years

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Fixed assets and depreciation (continued)

The gain or loss on disposal or retirement of a fixed asset recognised in the profit and loss account is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Impairment of assets

An assessment is made at each balance sheet date of whether there is any indication of impairment of any asset, or whether there is any indication that an impairment loss previously recognised for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's value in use and its net selling price.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. An impairment loss is charged to the profit and loss account in the period in which it arises.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation), had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is credited to the profit and loss account in the period in which it arises.

Operating leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessee, rentals payable under operating leases are charged to the profit and loss account on the straight-line basis over the lease terms.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Investment securities

Investment securities are investments in listed and unlisted securities, intended to be held for long term purposes, and are stated at cost less any provisions for impairment in values on an individual basis.

When a decline in the fair value of a security below its carrying amount has occurred, unless there is evidence that the decline is temporary, the carrying amount of the security is reduced to its fair value, as estimated by the directors. The amount of the impairment is charged to the profit and loss account for the period in which it arises. When the circumstances and events which led to the impairment in value cease to exist and there is persuasive evidence that the new circumstances and events will persist for the foreseeable future, the amount of the impairment previously charged is credited to the profit and loss account to the extent of the amount previously charged.

Convertible notes

Convertible notes are intended to be held for long term purposes, and are stated at cost less any impairment losses.

Other securities

Investments other than investment securities are classified as other securities. Other securities are held for trading purposes and are stated at their fair values on the basis of their quoted market prices at the balance sheet date, on an individual investment basis. The gains or losses arising from changes in the fair values of securities are credited or charged to the profit and loss account in the period in which they arise.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out method and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of manufacturing overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the balance sheet date of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the profit and loss account.

Income tax

Income tax comprises current and deferred tax. Income tax is recognised in the profit and loss account or in equity if it relates to items that are recognised in the same or a different period, directly in equity.

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences:

- except where the deferred tax liability arises from goodwill or the initial recognition
 of an asset or liability in a transaction that is not a business combination and, at the
 time of the transaction, affects neither the accounting profit nor taxable profit or
 loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carryforward of unused tax assets and unused tax losses, to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax assets and unused tax losses can be utilised:

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Income tax (continued)

- except where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and future taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Conversely, previously unrecognised deferred tax assets are recognised to the extent that it is probable that sufficient future taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Foreign currencies

Foreign currency transactions are recorded at the applicable exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable exchange rates ruling at that date. Exchange differences are dealt with in the profit and loss account.

On consolidation, the financial statements of overseas subsidiaries are translated into Hong Kong dollars using the net investment method. The profit and loss accounts of overseas subsidiaries are translated into Hong Kong dollars at the weighted average exchange rates for the year, and their balance sheets are translated into Hong Kong dollars at the exchange rates ruling at the balance sheet date. The resulting translation differences are included in the exchange fluctuation reserve.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Foreign currencies (continued)

For the purpose of the consolidated cash flow statement, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

Employee benefits

Employment Ordinance long service payments

Certain of the Group's employees have completed the required number of years of service to the Group in order to be eligible for long service payments under the Hong Kong Employment Ordinance in the event of the termination of their employment. The Group is liable to make such payments in the event that such a termination of employment meets the circumstances specified in the Employment Ordinance.

A provision is recognised in respect of the probable future long service payments expected to be made. The provision is based on the best estimate of the probable future payments which have been earned by the employees from their service to the Group to the balance sheet date.

Retirement benefits schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for all those employees who are eligible to participate in the MPF Scheme in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries and are charged to the profit and loss account as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Employee benefits (continued)

Retirement benefits schemes (continued)

Pursuant to the relevant regulations of Mainland China, subsidiaries of the Company operating in Mainland China participate in a local municipal government retirement benefits scheme (the "Mainland Scheme") whereby the subsidiaries are required to contribute a percentage of the basic salaries of their employees to the Mainland Scheme to fund their retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of the subsidiaries. The only obligation of the Group with respect to the Mainland Scheme is to pay the ongoing required contributions under the Mainland Scheme mentioned above. Contributions under the Mainland Scheme are charged to the profit and loss account as incurred. There are no provisions under the Mainland Scheme whereby forfeited contributions may be used to reduce future contributions.

Share option schemes

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. The financial impact of share options granted under the share option scheme is not recorded in the Company's or the Group's balance sheet until such time as the options are exercised, and no charge is recorded in the profit and loss account or balance sheet for their cost. Upon the exercise of share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which are cancelled prior to their exercise date, or which lapse, are deleted from the register of outstanding options.

31 March 2005

3. Summary of Significant Accounting Policies (continued)

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) the profit and loss on the trading of other securities on the transaction dates when the relevant contract notes are executed;
- (c) interest income, on a time proportion basis, taking into account the principal outstanding and the effective interest rate applicable; and
- (d) dividend income, when the shareholders' right to receive payment has been established.

Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the balance sheet, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

31 March 2005

4. Segment Information

Segment information is presented by way of two segment formats: (i) on a primary segment reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's business segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of the other business segments. Summary details of the business segments are as follows:

- (a) the car audio segment manufactures and trades car audio equipment;
- (b) the treasury investment segment comprises securities investment and trading; and
- (c) the corporate and other segment comprises the trading of other merchandise, corporate income and expense items and the provision of Internet and Internetrelated services.

Previously, the results, assets and liabilities from securities investment and trading business were classified as unallocated items in the segment information. Since the management of the Group anticipates that the securities investment and trading business will continue as part of the Group's principal activities in the future, the results, assets and liabilities of the securities investment and trading business have been separately disclosed as an individual segment for the year. Comparative amounts have been reclassified to conform with the current year's presentation.

In the prior year, the Internet segment, which comprised the provision of Internet and Internet-related services, was disclosed as a separate segment. Since the Internet segment had contributed and will continue to contribute less than 10% of the total of Group's results, assets and liabilities, the Internet segment has not been disclosed separately for the year. The results, assets and liabilities of the Internet segment have been included in the corporate and other segment. Comparative amounts have been reclassified to conform with the current year's presentation.

31 March 2005

4. Segment Information (continued)

In determining the Group's geographical segments, revenues are attributed to the segments based on the location of the customers, and assets are attributed to the segments based on the location of the assets.

There are no intersegment sales and transfers between the business segments.

(a) Business segments

5. Turnover and Other Revenue

Turnover represents revenue arising from the trading of car audio equipment and other merchandise, net of sale returns and trade discounts, and realised profits and losses, dividend and interest income arising from securities investment and trading.

An analysis of the Group's turnover and other revenue is as follows:

	2005	2004
	HK\$'000	HK\$'000
Turnover		
Sale of goods	7,794	15,410
Realised profits/(losses) on securities		
investment and trading*	28,220	(1,451)
Dividends	3,655	1,057

	39,858	15,821
Other revenue		
Bank interest income	167	116
Other income	531	17
	698	133

Previously, the realised profits and losses, dividend and interest income arising from securities investment and trading were classified as other revenue. In the opinion of the directors, the securities investment and trading business will continue in the future as part of the principal activities of the Group. Accordingly, the realised profits and losses, dividend and interest income arising from securities investment and trading have been included as part of the Group's turnover.

11. Net Profit from Ordinary Activities Attributable to Shareholders

The net loss from ordinary activities attributable to shareholders for the year ended 31 March 2005 dealt with in the financial statements of the Company was HK\$4,994,000 (2004: HK\$35,882,000) (note 26(b)).

12. Earnings Per Share

The calculation of basic earnings per share is based on the net profit from ordinary activities attributable to shareholders for the year of HK\$25,125,000 (2004: HK\$1,204,000), and the weighted average of 9,425,581,163 (2004: 8,697,505,136) ordinary shares in issue during the year.

A diluted earnings per share amount for the year ended 31 March 2005 has not been disclosed as no diluting events existed during the year.

A diluted earnings per share amount for the year ended 31 March 2004 has not been shown as the exercise prices of the outstanding share options of the Company were higher than the average market price of the Company's shares during the year, and therefore the share options were not dilutive.

The Group had goodwill arising from the acquisition of Sino Electronics Limited and its subsidiaries (collectively the "SE Group"), which carried out the car audio business of the Group, previously eliminated against the consolidated reserves.

The Group has made a provision for impairment loss on the remaining balance of HK\$4,413,000 which was charged to the profit and loss account for the year ended 31 March 2004. The impairment loss was estimated by the directors based on the recoverable amounts of the goodwill. In the opinion of the directors, such impairment loss arose from the intense competition in the car audio industry which adversely affected the profitability of the business.

17. Convertible Notes

On 31 May 2001, the Group subscribed for convertible notes issued by Wonson International Holdings Limited (the "Wonson Convertible Notes"), a company listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and independent of the Group. The convertible notes bore interest at the rate of 7% per annum, were unsecured and matured on 2 July 2004. The Wonson Convertible Notes were convertible into approximately 642,857,000 ordinary shares of Wonson at an initial price of HK\$0.028 per share. The conversion prices would be HK\$0.031 and HK\$0.034 per share for the period from the date immediately following the first anniversary from the date of issue of the convertible notes (the "Issue Date") to the second anniversary from the Issue Date and for the period from the date immediately following the second anniversary from the Issue Date to the third anniversary of the Issue Date, respectively. These conversion prices were subject to adjustment. Upon maturity on 2 July 2004, Wonson International Holdings Limited repaid all the outstanding principal amount of the Wonson Convertible Notes, together with interest accrued, in cash to the Group.

On 31 March 2005, the Group subscribed for convertible notes issued by China Sci-Tech Holdings Limited (the "CST Convertible Notes"), a company listed on the Stock Exchange and independent of the Group. The CST Convertible Notes bear interest at the rate of 3% per annum, are unsecured and mature on 30 March 2008. The CST Convertible Notes are convertible into approximately 45,000,000 ordinary shares of China Sci-Tech Holdings Limited at an initial price of HK\$0.3 per share. The conversion prices will be HK\$0.35 and HK\$0.40 per share for the period from the date immediately following the first anniversary from the date of issue of the convertible notes (the "Issue Date") to the second anniversary from the Issue Date and for the period from the date immediately following the second anniversary from the Issue Date to the third anniversary of the Issue Date, respectively. These conversion prices are subject to adjustment. Upon maturity, China Sci-Tech Holdings Limited will repay the outstanding principal amount of the convertible notes, together with interest accrued, in cash to the Group.

Trading terms with customers are largely on credit, except for new customers where payment in advance is normally required. Invoices are normally payable within three months of issuance, except for established customers where the terms are extended to six months. Each customer has a maximum credit limit, which is granted and approved by senior management. The Group seeks to maintain strict control over its outstanding receivables and overdue balances are regularly reviewed by senior management. The Group's trade receivables are recognised and carried at their original invoiced amount less provisions for doubtful debts when collection of the full amount is no longer probable. Bad debt is written off as incurred.

20. Prepayments, Deposits and Other Receivables

Included in the balance at 31 March 2005 was an amount of HK\$25 million which represented the deposit paid for the proposed acquisition of the entire interest in Sociedade De Fomento Predial Fu Wa (Macau) Limitada ("Fu Wa"), a company incorporated under the law of Macau with limited liability (note 31(a)). The deposits had subsequently been refunded.

- # 713,070,000 share options were exercised at the subscription price of HK\$0.0215 per share, resulting in the issue of 713,070,000 ordinary shares of HK\$0.01 each for a total cash consideration of approximately HK\$15,331,000. The proceeds were applied as additional working capital of the Group.
- * The Company entered into a placing agreement (the "Placing Agreement") with Tai Fook Securities Company Limited ("Tai Fook"), the placing agent, on 27 January 2005, for the subscription of 2,000,000,000 new shares of the Company of HK\$0.01 each at a price of HK\$0.032 per share. 2,000,000,000 shares of HK\$0.01 each of the Company were issued and cash proceeds of HK\$64,000,000, net of share issue expenses of HK\$1,600,000, were received by the Company which is applied as general working capital of the Group.

Share options

Details of the Company's share option schemes and the share options issued under the schemes are included in note 25.

31 March 2005

25. Share Option Schemes

The Company operates share option schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations.

On 22 February 1994, the Company adopted a share option scheme (the "Old Scheme") in order to attract, retain and motivate high-calibre employees of the Group. Under the Old Scheme, the directors could, on or before 21 February 2004, at their discretion, make an offer to any employee of the Company or any of its subsidiaries, including directors of the Company or any such subsidiary, for the grant of options to subscribe for shares of the Company. The subscription price would be the higher of 80% of the average of the closing share prices on the Stock Exchange for the five trading days immediately preceding the date of the offer of the option and the nominal value of the shares. The maximum number of shares in respect of which options could be granted under the Old Scheme would not exceed, in nominal amount, 10% of the issued share capital of the Company from time to time. The maximum number of shares in respect of which options could be granted to any one employee or director would not exceed 25% of the aggregate number of shares in respect of which options are issued and issuable under the Old Scheme. The offer for the grant of share options could be accepted within 40 days from the date of the offer. An amount of HK\$1 was to be payable by the grantee of an option upon acceptance of the grant of the option. The Old Scheme was terminated on 27 August 2003. There was no share option granted under the Old Scheme which remained outstanding as at 31 March 2004.

A new share option scheme (the "New Scheme"), which complies with new requirements of Chapter 17 of the Listing Rules on granting options under share option schemes of listed companies, was adopted pursuant to the ordinary resolution passed by the shareholders at the annual general meeting of the Company held on 27 August 2003.

Under the New Scheme, eligible participants include the Company's directors, including independent non-executive directors, other employees of the Group or of any invested entity, suppliers of goods or services to the Group or of any invested entity, customers of the Group or of any invested entity, shareholders of the Group or of any invested entity, holders of securities of the Group or of any invested entity and persons or entities that provide research, development or other technological support to the Group or of any invested entity. The New Scheme became effective on 27 August 2003 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

31 March 2005

25. Share Option Schemes (continued)

The maximum number of shares which may be issued upon exercise of all options granted and to be granted under the New Scheme is an amount equivalent to 10% of the shares of the Company in issue as at the date of approval of the New Scheme, i.e. 861,936,047 shares, unless approval for refreshing the 10% limit from the Company's shareholders has been obtained. The maximum number of shares issued and to be issued upon exercise of the share options granted to each eligible participant in the New Scheme (including exercised, cancelled and outstanding options) within any 12-month period, is limited to 1% of the shares of the Company in issue. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Under the New Scheme, share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates are subject to approval in advance by the independent non-executive directors. In addition, any grant of share options to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, which would result in the shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant in excess of 0.1% of the shares of the Company in issue and with an aggregate value (based on the closing price of the Company's shares at the date of the grant) in excess of HK\$5,000,000 is subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options under the New Scheme may be accepted within 28 days from the date of the offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determined by the directors, save that such period shall not be more than 10 years from the date of adoption of the New Scheme subject to the provisions for early termination set out in the New Scheme. Unless otherwise determined by the directors at their sole discretion, there is no requirement of a minimum period for which an option must be held before it can be exercised.

The exercise price of the share options granted under the New Scheme is determined by the directors, but shall not be less than the highest of (i) the Stock Exchange closing price of the Company's shares on the date of the offer of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of the offer; and (iii) the nominal value of a share of the Company on the date of the offer.

31 March 2005

25. Share Option Schemes (continued)

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

Since the date of adoption of the New Scheme, no options have been granted under the New Scheme.

The movements of the share options granted under the Old Scheme during the year ended 31 March 2004 are as follows:

There were no share options granted or cancelled during the year ended 31 March 2004.

- * The vesting period of the share options was from the date of the grant until the commencement of the exercise period.
- The exercise price of the share options was subject to adjustment in the case of rights or bonus issues, or other similar changes in the Company's share capital.

31 March 2005

25. Share Option Schemes (continued)

- The price of the Company's share disclosed regarding the grant of the share options was the Stock Exchange closing price on the trading day immediately prior to the date of the grant of the share options. The price of the Company's shares disclosed regarding the exercise of the share options was the weighted average of the Stock Exchange closing price of the shares immediately before the date on which the options were exercised.
- # The number of shares exercisable and the exercise price of the share options granted were adjusted following the rights issue of shares of the Company on 27 March 2000.

The 713,070,000 share options exercised during the year ended 31 March 2004 resulted in the issue of 713,070,000 additional ordinary shares of the Company for a total cash consideration of approximately HK\$15,331,000 (note 24).

26. Reserves

(a) Group

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on page 24 of the financial statements.

Certain amounts of goodwill arising on the acquisition of subsidiaries in prior years were eliminated against the consolidated reserves as explained in note 14 to the financial statements.

The contributed surplus of the Group arose as a result of the Group reorganisation on the listing of the Company's shares in 1994, and represents the difference between the nominal value of the shares of the former holding company of the Group prior to the Group reorganisation, over the nominal value of the share capital of the Company issued in exchange therefor.

In addition, pursuant to special and ordinary resolutions passed at the special general meeting held on 22 September 2000, the issued and fully paid share capital of the Company was reduced by HK\$448,992,000 through a reduction in the nominal value of the share capital of the Company. The credit arising as a result of the reduction of the share capital account of approximately HK\$448,992,000 was transferred to the contributed surplus account.

Note:

The contributed surplus of the Company arose as a result of the Group reorganisation scheme referred to in (a) above and represents the excess of the then combined net assets of the subsidiaries acquired, over the nominal value of the share capital of the Company issued in exchange therefor.

In addition, the reduction in share capital described in (a) above also resulted in a credit of approximately HK\$448,992,000 being transferred to the Company's contributed surplus account.

31 March 2005

27. Operating Lease Arrangements

The Group leases certain of its office properties under operating lease arrangements. Leases for properties are negotiated for terms of two years.

At 31 March 2005, the Group had total future minimum lease payments under non-cancellable operating leases falling due as follows:

	Group	
	2005	2004
	HK\$'000	HK\$'000
Within one year	873	1,440
In the second to fifth years, inclusive	689	142
	1,562	1,582

In addition, the Group is required to pay an annual fee of HK\$57,000 in respect of the use of certain land in Mainland China for its car audio business up to 2006 with an annual increment of 5% commencing from 1993. The total future annual fee payable within one year and in the second to fifth years, inclusive, from the balance sheet date amounted to HK\$107,000 and HK\$65,000, respectively.

28. Commitments

Apart from the operating lease commitment detailed in note 27 above, the Group and the Company did not have any significant commitments at 31 March 2005.

31 March 2005

29. Contingent Liabilities

At the balance sheet date, contingent liabilities not provided for in the financial statements were as follows:

	Group	Group	
	2005		
	HK\$'000	HK\$'000	
Bills discounted with recourse	_	109	

As at 31 March 2005 and 31 March 2004, the credit facilities granted to a subsidiary of the Company in respect of securities investment and trading subject to unlimited corporate guarantees provided by the Company were not utilised.

30. Related Party Transactions

During the year ended 31 March 2004, the Company provided corporate guarantees to the extent of HK\$12,997,000 for banking facilities granted to Chaifa Investment Limited, a company which was disposed of by the Group during year ended 31 March 2003 and in which Mr. Chan Chun Tung, John, was a director, for nil consideration. The corporate guarantees were released during the year ended 31 March 2004.

31 March 2005

31. Post Balance Sheet Events

(a) On 19 January 2005 and 2 February 2005, the Company, Walterford Company Limited, an indirect wholly–owned subsidiary of the Company incorporated in the British Virgin Islands, entered into a preliminary agreement and a sale and purchase agreement respectively, with China Travel Services (Hong Kong) Limited and Findco Enterprises Limited, subsidiaries of China Travel International Investment Hong Kong Limited ("CTII"), and CTII, in respect of the acquisition (the "Acquisition") of the entire interest in Fu Wa for a total consideration of HK\$500 million. The consideration was to be settled as to HK\$250 million in cash, of which a deposit of HK\$25 million was placed in an escrow amount as at 31 March 2005, and as to HK\$250 million by convertible notes to be issued by the Company in connection with the Acquisition. Further details of the Acquisition and the convertible notes were set out in the Company's circular dated 10 June 2005.

The principal activities of Fu Wa consist of property investment holdings and hotel operations in Macau, and the principal assets of Fu Wa comprise the Hotel Grandeur Macau.

A special meeting of the Company's shareholders was held on 27 June 2005 where the Acquisition was not approved by the shareholders by way of poll. Therefore, the Acquisition would not be completed.

(b) On 12 May 2005, the Group obtained a short term unsecured loan of HK\$30,000,000, repayable on or before 11 February 2006 with interest charged at the best lending rate quoted by the Hong Kong and Shanghai Banking Corporation Limited from time to time plus 3.5% per annum, from an authorised financial institute. On 20 May 2005, the Group obtained a long term unsecured loan of HK\$60,000,000, repayable on or before 31 July 2006 with interest charged at the best lending rate quoted by Liu Chong Hing Bank Limited from time to time plus 5% per annum, from another authorised financial institute. The above unsecured loans had been obtained for the purpose of financing the proposed Acquisition. The above unsecured loans had been fully repaid before the date of issue of these financial statements.

31 March 2005

31. Post Balance Sheet Events (continued)

- (c) Pursuant to the Company's announcement dated 21 June 2005 and the related circular dated 4 July 2005, the Company proposed to hold a special general meeting of shareholders to consider the following special resolutions:
 - every 10 shares of HK\$0.01 each in the issued share capital of the Company be and are hereby consolidated into one share of HK\$0.10 in the capital of the Company (a "Consolidated Share");
 - (ii) every issued Consolidated Share be and is hereby reduced in nominal amount by cancelling HK\$0.09 of the paid-up capital on each issued Consolidated Share so as to form (after the share consolidation) one share of HK\$0.01 in the capital of the Company (each a "Reorganised Share");
 - (iii) fractional entitlements to Reorganised Shares shall not be issued and all fractions of the Reorganised Shares to which holders of issued shares of HK\$0.01 each in the capital of the Company would otherwise be entitled shall be aggregated and sold for the benefit of the Company;
 - (iv) the credit arising from the Capital Reorganisation be transferred to the contributed surplus account of the Company; and
 - (v) any one of the directors of the Company be and is hereby authorised generally to do all things appropriate to effect and implement any of the foregoing.

32. Comparative Amounts

Certain comparative amounts have been reclassified to conform with the current year's presentation. These include, principally, the inclusion of the realised profits and losses, dividend and interest income arising from securities investment and trading of HK\$32,064,000 (2004: HK\$411,000) as part of the Group's turnover since the management of the Group anticipates that the securities investment and trading business will continue in the future as part of the principal activities of the Group. Accordingly, the comparative amounts of the results, assets and liabilities of securities investment and trading business in note 4 have been disclosed as a separate segment to conform with the current year's presentation. Previously, the realised profits or losses, dividend and interest income arising from securities investment and trading were classified as other revenue in the profit and loss account and were included as unallocated items in the note on segment information.

33. Approval of the Financial Statements

The financial statements were approved and authorised for issue by the board of directors on 26 July 2005.
